A MINNESOTA STATE MANAGEMENT PLAN FOR INVASIVE SPECIES

Minnesota Statutes require the Departments of Agriculture and Natural Resources to establish statewide coordinating programs for invasive species. The statutes also require them to prepare this statewide invasive species management plan to coordinate the aspects of invasive species activities in Minnesota. The Minnesota Invasive Species Advisory Council (MISAC) took a lead role to develop this plan which can be implemented by MISAC member organizations and other entities in the state.

TYPE
Plan

ISSUE
Aquatic Invasive Species
