

## THE CITY OF ANN ARBOR

The City of Ann Arbor uses a combination of local groundwater and surface water from an intake in the Huron River to provide drinking water for approximately 125,000 customers.

### **THE CITY OF ANN ARBOR'S PFAS RESEARCH AND TREATMENT PLANT UPDATES**

Updated on: June 13 2019

The City of Ann Arbor Water Treatment Plant has taken voluntary steps to enhance the removal of per- and polyfluoroalkyl substances (PFAS) from drinking water.
